flag poles &  
advertising masts

ZINCOMETAL S.A. is constantly developing and improving its products. For this reason, all product descriptions in this catalogue are intended as a general guide, and we may change specifications from time to time in the interest of product development, without prior notification or public announcement. Regarding the validity of the International Standards it is considered always the oldest edition.

Stay tuned with the company by signing up in ZINCOMETAL's Newsletter ([www.zincometal.gr](http://www.zincometal.gr)) and Social Media.

### Flag Poles & Advertising Masts

**Image 1**

Conical steel flag poles of circular cross-section with base plate, hot-dip galvanized and electrostatic powder coating surface finish (duplex system).

**Image 2**

Steel pole for mounting electronic information signs.

**Image 3**

Advertising masts.

**Flag Poles** ZINCOMETAL S.A. offers a complete range of flag steel poles which enhance the elegance and the beauty of the product. Designed and manufactured round conical steel poles with base plate.

**Material** Hot rolled steel grade S235JR according to EN 10025.

**Surface protection** Hot-dip galvanized according to International Standard EN ISO 1461 or/and electrostatic powder coating surface finish (Duplex System).

**Advertising Masts** To establish a new company in distribution centers or commercial locations etc. without anybody knowing the existence of it, it's a fault investment.

A simple and quick way in order to offer visual confirmation or to give the advertising message maximum visibility and value is to install Advertising mast from ZINCOMETAL.

A varied range of masts are available in order to meet the customer needs.
