parking poles

ZINCOMETAL S.A. is constantly developing and improving its products. For this reason, all product descriptions in this catalogue are intended as a general guide, and we may change specifications from time to time in the interest of product development, without prior notification or public announcement. Regarding the validity of the International Standards it is considered always the oldest edition.

Stay tuned with the company by signing up in ZINCOMETAL's Newsletter (www.zincometal.gr) and Social Media.

Parking Poles

Complete solutions for
parking applications.

Introduction

ZINCOMETAL manufactures elegant round conical parking steel poles for car protection in case of good or bad weather conditions. For a better aesthetic result, better static analysis and easy and faster installation-assembly of the parking poles, the company is designing and manufacturing complementary die-cast connectors.

Material

Hot rolled steel grade S235JR according to EN 10025.

Surface protection

Hot-dip galvanized according to International Standard EN ISO 1461.
